

Tree Steward Report

Playing field:

1 Whitebeam tree replaced. The Rowan next to the far corner bench has vanished with the tree guard collected from the adjacent field – did the PC want this re-newed? All other trees checked and secured and growing well and will be weeded and mulched before end of February.

Hedgerow event:

270m of hedgerow planted with 50 trees. Volunteer support was fantastic with 12 on Saturday and 7 on Sunday. Trees registered on the Queen's Green Canopy map.
